

Table 13. Lack of Health Care Coverage, Combined Years 1993-1994

These are estimated percentages of persons who had either no health care coverage for the previous year or coverage for only part of the previous year. Health care coverage includes private and government coverage, including Medicare, Medical Assistance, employer-provided coverage and privately-purchased coverage. Percentages were estimated by aggregating interviews conducted in 1993 and 1994 for the Family Health Survey.
